

PEEK AT OUR WEEK

Week of September 26th, 2022

Reminders

- Picture Day is tomorrow, (September 27th)! Students may wear free dress (no free dress pass needed).
- We are finishing up our fall MAP testing this week. MAP reports will be sent home with mid-trimester reports in October.
- If you're planning to volunteer in the classroom or around the school, [this form](#) (linked) will need to be filled out and returned to the front office.
- No school on Friday, October 14th due to a teacher professional development day.

This Week in 1A

Religion: Our chapter is entitled "God's Gifts for Us," in which we appreciate that all of Creation is God's gift to us. Jesus is His greatest gift of all. We'll share our own gifts, given to us by God, and ways we can use our gifts in the world.

Handwriting: In handwriting and phonics we will focus on the stream family, in which the air streams from your mouth as you speak each sound. These include f, v, th, s, z, and sh.

Language Arts: Our reading theme centers around school; skills include reading/writing words with short o, identifying action verbs, reviewing nouns and possessive nouns, and thinking about the sequence of events in a story. We'll be reading and writing about Curious George too!

Math: We will continue to explore the various ways to make sums of 4, 5, 6, 7, 8, 9, and 10. We will learn about missing addends as we find missing parts of ten.

Science: We will discuss the question, "what do scientists do?" We'll learn that scientists research, record, make observations, and share data & information.

*****:** Thank you for sending an apple in to celebrate the first day of fall last week; students were excitedly smelling the applesauce cooking in 1A all day and could hardly wait to eat!

A PEEK INSIDE 1A

Star of the Week

CHASE

Chase was our Star this past week! We learned that he loves dogs, soccer, and the color blue. Chase's favorite food is pizza, his favorite board game is Monopoly, and his favorite holiday is Halloween. Chase enjoys having pillow fights with his sister and playing games like Monopoly with his family. Chase would like to be a soccer coach when he grows up. We are so happy to have Chase as a part of our 1A family!

We started our math small groups this past week! Students rotate through four math groups: working with the teacher, using a math app, playing a math game, and completing individual work.

Happy birthday, Laura!

We've had lots of apples in our lunches this week!
